Job number#.....

(office use only)

Please fill in the following information to the best of your knowledge.

If you don't yet have exact answers, just explain as much as possible.

1 Complete wording/images on the sign If you have a design already, please attach a good quality copy so that I can see it.

4 Who is the sign aimed at and what would you ideally like them to do once they have seen it? (For example: "Pedestrians passing my shop/come in and buy coffee", "Patients looking for my clinic/find my clinic" or "Motorists travelling at 80kph/remember my name next time they need a plumber").

2 Sign dimensions (If you don't know the measurements I can help work it out, but please describe the parameters; for example 'it needs to fit on the door of my 2008 Nissan Navara and I don't want it to look too crowded' or 'it needs to fit between the bi-fold door and the window above the coffee machine' and attach a photo if possible).

5 Do you have a design or would you like me to design it? If you'd like me to design something please describe as best you can what you're hoping for. Attach images if that's the best way to explain your ideas. If you have a design please attach a good quality copy so that I can see it.

3 Type and condition of substrate (building/vehicle/window/flat board/rendered brick/unpainted sheetmetal/ground level/6-8 m above street level/paddlesteamer on slipway/paddlesteamer on water) Is it existing or a new supply?

6 Do you have a fixed deadline and/or budget. (Is it for a coming event, what's the date and is it a once-off or will you use the sign again every year?)

7 If you have any photos of the site where the sign will be located, please send them along. The best photos are square on and taken approximately from where people will see your signs.
